

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

The Cuban crisis naturally demands more space in the editorial department of the *American Monthly Review of Reviews* than any other single topic. The whole matter is reviewed in the light of the latest and most authentic information received up to the time of going to press. The *Review* is convinced that the country desires and will demand intervention in Cuba, that the real question at issue is the relief of Cuba, not the settlement of the *Maine* incident, and that Spain's final withdrawal from the Western hemisphere will be the only satisfactory termination of the present trouble.

*The Monist.* A Quarterly Magazine devoted to the Philosophy of Science. Edited by Dr. Paul Carus; T. J. McCormack, Assistant Editor; E. C. Hegeler, and Mary Carus, Associate Editors. Price, \$2.00 per year in advance. Single number, 50 cents. The Open Court Publishing Co., Chicago, Ill.

Prof. Ferdinand Hüppe, the well known Professor of Hygiene in the University of Prague, contributes an interesting and important article to the April *Monist* on the Causes of Infectious Diseases. Prof. Hüppe is a bacteriologist of the modern school but nevertheless opposes the main doctrines of Koch, Pasteur and Virchow, and few will dissent from the reasonableness of the position he takes, which harmonizes the facts of the new theories with the established principles of the old. Both physicians and laymen will be interested in Prof. Hüppe's presentation of modern bacteriology.

In the same number, the famous Italian criminologist, Prof. Cesare Lombroso seeks to establish his favorite theory of the degeneracy of genius by considering certain regressive phenomena in evolution. Dr. Woods Hutchinson writes passionately and with rare ability upon *Lebenslust*, or the joy of life. A distinguished English lady, E. E. Constance Jones, discusses *An Aspect of Attention*. Prof. John Dewey, of the University of Chicago, discusses ethics in the light of evolution. And, finally, the editor, Dr. Paul Carus, in a long article on the Unmateriality of Soul and God, seeks to lay a firm foundation for correct views of these momentous questions. The number concludes with entertaining Literary Correspondence from Europe, and the usual number of Book Reviews in the field of science, philosophy and religion.

#### SOME ERRATA IN FEBRUARY NUMBER.

Page 42, line 34, for "defective" read defect.

Page 43, line 12, for " $-xy=6$ " read  $-xy=-6$ .

Page 44, line 17, for last " $\pm_1$ " read  $\mp_1$ ; line 30, omit "(" before  $xy$ .

Page 47, line 18, for " $PN$ " read  $DN$ ; line 19, supply "(" before  $FG+NE$ .

Page 48, line 7, for " $12\pi n + \pi n^2/1200=100$ " read  $12\pi n + \pi n^2/100=1200$ .

Page 52, line 28, for " $3(6^2-1')$ " read  $3(6^2-1^2)$ .

Page 53, line 3, after 208, insert 608; line 33, for "13" read 15.

Page 54, line 3, for "363" read 368.

Page 59, line 21, for " $7m^2n$ " read  $7m^3n$ .

Page 60, line 1 of problem 70, for " $\pi/n$ " read  $\pi/2n$ ; and in last line, for " $\pi/2l$ " read  $\pi/2n$ .

Page 61, problem 63, for " $x^2$ " read  $x^3$ , and for "105498" read 105489.

Page 66, line 13 from bottom, for "Page 22" read Page 17.
